## Live Projects

### IIM LMS | XOsportshub | PartyPipeline

- Built responsive and interactive web applications using React.js, JavaScript, HTML, CSS, and Tailwind CSS.
- Utilized Redux and React Context API for efficient state management and scalable architecture.
- Implemented Material UI to build modern, reusable, and visually consistent interface components.
- Converted Figma and design mockups into pixel-perfect, responsive UI components with strong attention to detail and cross-browser compatibility.
- Collaborated closely with designers and backend developers to integrate APIs and deliver seamless, high-performing user experiences.
- Performed manual testing to validate functional requirements, identify UI issues, and ensure reliable, high-quality frontend performance.
- Troubleshoot and resolved frontend bugs in HTML, CSS, and JavaScript, optimizing both usability and load performance.

## Professional Experience
